CALIFORNIA BLUES AND GRAYS

Sitting among the blues and grays
Thinking back to by-gone days
Wondering where I'll be in a year from now
Watching shadows on the wall
Waiting for a friend to call.

If I have my way, I'll make it somehow
I have so many reasons for going on
But it seems they've all been thrown away
I looked to find myself, but I was gone
Running through these California blues and grays.

BIANCHI ENDS

BIANCHI BOWS OUT - Bell High's head baseball coach has completed his 25th year of coaching and has announced it will be his last. The likeable coach guided the Eagles to nine Eastern League pennants and had 24 seasons in third place or better.

A career spanning 25 years, beginning and ending at the same place, has been completed by Steve Bianchi.

After graduation from USC, Bianchi took the coaching position at Bell. Besides coaching the varsity baseball team for 25 years, he also coached the Eagle football squad for 14 years. He lead the football team to four league championships (1951, 52, 54, and 56).

His baseball squads have been frequent competitors in the All-City championships, including last season, but the Eagles never won the big prize.

The 1953 Eagles nine went as far as the finals of the tournament only to lose to San Fernando, 5-3.

Many outstanding players from Bianchi's baseball and football teams have gone on to stardom, both in the college and professional ranks.

In 25 years, the Bell baseball squads have only once failed to place third or better under Bianchi.

OUTSTANDING CAREER

The other side of the friendly coach is that of an artist. He has taught the class at Bell for 10 years and is well liked by his students.

"I've always loved to paint," he said," and at USC I took many classes in art and architecture." "It started out as a once-a-day class but now it's a full day of classes," he laughed.

An avid artist himself, Bianchi busies himself with driftwood paintings, carved boat mobiles and water colors. During the summer he exhibits his work in art festivals and earns extra money from the sales.

Each year he and his wife, Iris, motor north to relax with fishing, hiking, and painting-their favorite past-times. Says Bianchi, "I leave for my real home up in Washington right after school lets out for the summer and I don't come back until just before it starts again in the fall." In five years Bianchi plans on making Washington his permanent home.

Mr. Bianchi states he will carry with him fond memories of coaching and of Bell High School.

Let me tell you 'bout the starchild
He was born on a comet's tail
and if you listen in the night time
You can hear the starchild's wail.

The starchild looks down to earth
From the far reaches of space
Keeping his lonely vigil
On the human race.

The starchild sees only what he wants
'cause he has a million eyes
The starchild is everywhere
'cause the starchild never dies.

The starchild is never happy
He wants to come from above
To the world of the humans...
The starchild wants to be loved.

But he knows he must stay
In the far reaches of space
The poor starchild knows
He can never be part of the human race.

The starchild is doomed to a life of wondering
For it's space where he belongs
And if you listen in the night time
You can hear his sad song.

But starchild keep your head up high
Be glad you're away from the madness
For if you were in our world
It would only cause you sadness.

So child of the universe
Be glad you're where you are
For we all need you so badly
You're the sun, the moon, and the stars....

--Tom Stiner

Ronda
Is a real
sweet little girl
Be good and have
fun in the summer.
And we and have to get
together.

Love Eddie

Bless the beast and the children
Give them shelter from the storm
Keep them safe, keep them warm.

Light their way when the darkness surrounds them
Give them love, let it shine all around them.
